

GUDDU KUMAR

Full Stack .NET Developer | AI Integrated Engineer

guddukumarr918@gmail.com | +91 7004043726 | [LinkedIn](#) | Pune, India

SUMMARY

Results-oriented Full Stack .NET Developer and AI Integrated Engineer with experience architecting scalable backend systems, full-stack enterprise applications, and production-grade AI-integrated / AI solutions. Skilled in C#, .NET Core, ASP.NET Web API, and Angular, with hands-on expertise integrating Large Language Models (LLMs) and Retrieval-Augmented Generation (RAG) into enterprise workflows and deploying solutions on cloud infrastructure.

EDUCATION

Chandigarh University

Bachelor of Engineering (B.E.) in Computer Science / Engineering

2018 – 2022

Punjab, India

SKILLS

- **Backend & Databases:** C#, .NET 6/8, .NET Core, ASP.NET Web API, MVC, Entity Framework Core, LINQ, Async/Await, Dependency Injection, RESTful APIs, Python, SQL Server
- **Frontend & Methodologies:** Angular, HTML5, CSS3, JavaScript, TypeScript | SOLID Principles, Clean Architecture, Repository Pattern, Microservices, Agile/Scrum
- **Testing:** xUnit, NUnit | Unit Testing, Integration Testing, Swagger / OpenAPI, Postman
- **AI Integration & Machine Learning:** Generative AI, LLM Integration, RAG, Prompt Engineering, Vector Databases (FAISS, Pinecone), LangChain, Azure OpenAI
- **Cloud & Tools:** Azure (App Service, Azure DevOps, Functions), AWS (Bedrock, Lambda, API Gateway), Docker, Git, CI/CD Pipelines

EXPERIENCE & PROJECTS

IRIN – Singapore Taxation System – Senior Software Engineer

Jan 2025 – Present

NCSI (Gov+)

Pune, India

- **Objective:** Contribute to a nationwide taxation platform for Singapore, focusing on taxpayer onboarding and payment processing workflows.
- **Taxpayer Registration Module:** Developed and maintained the taxpayer registration module using .NET Core and ASP.NET Web API, streamlining onboarding for taxpayers and improving registration processing time by 45%.
- **Payment Module:** Built and maintained secure payment processing services in .NET Core integrated with SQL databases, ensuring accurate reconciliation and reducing payment failures by 58%.
- **Integration & Testing:** Verified endpoint robustness and API reliability using Postman, increasing test coverage by 40%.

AI-Driven Testing Assistant (ADTA) – Software Engineer

Apr 2025 – Dec 2025

NCSI (Enterprise)

Pune, India

- **Objective:** Design an enterprise platform to seamlessly automate workflows across the end-to-end STLC by integrating AI into testing processes.
- **Generative Automation:** Automated test case generation, test planning, and defect categorization using custom LLM prompt pipelines, reducing manual testing effort by 40%.
- **GenAI Architecture:** Designed end-to-end GenAI platform with LLM integration, prompt orchestration, and REST APIs built using .NET Core Web API following Clean Architecture and SOLID principles.

RAMIS – Sri Lanka Taxation System – Associate Software Engineer

Apr 2023 – Mar 2025

NCSI (Gov+)

Pune, India

- **Objective:** Optimize and maintain a high-impact, nationwide taxation system in Sri Lanka streamlining workflows for taxpayers.
- **Performance Engineering:** Tuned enterprise .NET Core stack, ASP.NET Web API services, and complex relational SQL database queries, improving response time by 35%.
- **Forms and Returns Module:** Developed and maintained the Forms and Returns module using .NET Core and ASP.NET Web API, enabling accurate taxpayer filing and improving processing efficiency by 55%.
- **Framework Module:** Built and maintained core Framework module components and reusable services supporting enterprise-wide functionality across RAMIS, reducing development time by 45%.
- **GA Module:** Contributed to the GA module, implementing business logic and workflows to support assessment processing, improving accuracy by 60%.
- **Integration & Testing:** Implemented framework security updates, responsive Angular modules, and verified endpoint robustness using Postman, increasing test coverage by 40%.

ACHIEVEMENTS & CERTIFICATIONS

- **Spot Award:** Recognized with the Spot Award three times for outstanding performance and contributions.
- **Sunshine.coder:** Awarded for Harnessing Advanced Technology at Sunshine.coder.
- **Selected as a member of the NCSI Innovation Team,** recognized for contributions to emerging technology initiatives.
- **Certifications:** Microsoft Azure AZ-900 Fundamentals | Coursera .NET Developer | SkillSoft Angular | HackerRank SQL
